ALTEK line interactive UPS with AVR and built in SMF battery with low battery cutoff facility is a compact portable device offering complete power protection at an affordable price.

**SALIENT FEATURES**

Smart power saver comprises three battery saving features. Buck and boost voltage correction, automatic overload protection and deep discharge protection with audio, visual alarms and indications, short circuit protection, inbuilt constant current constant voltage charger for fast and safe charging of batteries, Generates low heat thereby the internal components and battery remain cool ensuring a long life for battery and systems.

**SPECIFICATIONS**

**AC MODE DETAILS :**

- Input voltage - 220V A.C. (Nominal)
- Input Voltage Variation - 145V to 280 V A.C.
- Output Voltage - 220 V  $\pm$  6%

**BATTERY MODE DETAILS**

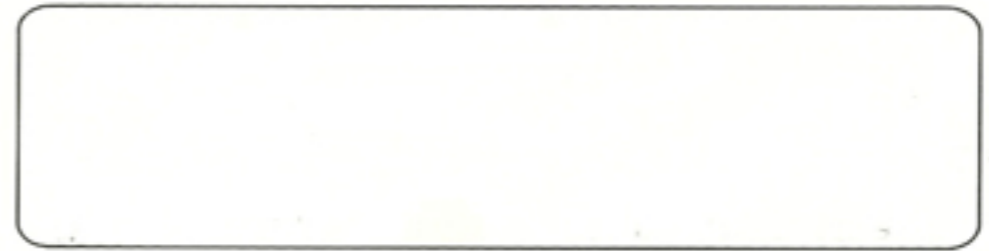

- Input Voltage - 12 V D.C. (Nominal) for 500 VA & 625 VA
- 24 V D.C. (Nominal) for 625 VA
- 24 V D.C. (Nominal) for 1 KVA & 1.5 KVA
- Output Voltage - 230 V A.C. (Nominal)
- Output regulation -  $\pm$  5%
- Frequency - 50 Hz (Nominal)
- Load Power Factor - 0.8 lag to unity
- Output Wave Form - Quasi Sine Wave

**UNIT PROTECTION**

- Inverter Overload - Electronic Overload Shutdown
- Low Battery - Automatic low battery shut down
- Input overload - A.C. Fuse
- Efficiency - Appx. 85%
- Operating Temperature - 0 $^{\circ}$  to 50 $^{\circ}$  C
